27 September 2026

1. Company at a glance

NorthBridge Living is a fictional UK accommodation support company used as the shared knowledge base for this RAG evaluation. The company helps international students, graduates and relocating professionals understand housing options, compare verified listings and prepare rental applications. NorthBridge is an accommodation support and coordination service; it is not a landlord, letting agency, legal adviser, guarantor or tenancy provider.

Item	Details
Primary markets	London, Manchester, Birmingham and Leeds.
Primary customers	International students, graduates and early-career professionals relocating within the UK.
Core promise	Clear property information, transparent service scope and human escalation when a decision or sensitive issue requires a person.
Supported channels	Email and web support. Premium customers also receive a named relocation adviser.
Standard support hours	Monday-Friday, 09:00-18:00 UK time, excluding UK public holidays.
Standard response target	Within 1 business day for normal enquiries.
Premium response target	Within 4 business hours during support hours for active relocation cases.

Important role boundary

NorthBridge can explain its own services and the factual information supplied by property providers. It cannot guarantee that an applicant will be accepted, guarantee a tenancy, give legal advice, make a landlord decision or approve refunds outside the published service policy.

2. Supported relocation journey

1. Discovery: the customer shares target city, budget, move date, property type and essential requirements.
2. Matching: NorthBridge searches the current portfolio and creates a shortlist that fits the stated criteria.
3. Viewing coordination: where a provider offers viewings, NorthBridge helps coordinate available time slots.
4. Application preparation: the customer receives a checklist for identity, affordability, references and provider-specific documents.
5. Decision stage: the landlord or property provider makes the acceptance decision. NorthBridge does not influence or guarantee that decision.
6. Move-in preparation: customers receive a practical checklist covering payment confirmation, check-in arrangements, inventory and support contacts.

3. Customer segments and typical needs

Item	Details
International students	Need clear bills information, university proximity, guarantor guidance and academic-year timing.
Graduates	Often need flexible move dates, city-centre access and help understanding references or affordability checks.
Relocating professionals	Often prioritise commute, furnished accommodation, predictable monthly costs and rapid application coordination.
Parents or sponsors	May request factual cost summaries and application requirements but cannot receive another adult customer's personal information without authorisation.

4. Service standards

- Property facts are presented using provider-supplied information and should be checked again before a tenancy is signed.
- Prices in the portfolio are monthly rent figures unless explicitly labelled otherwise.
- Deposits shown in the portfolio are property-provider deposits, not NorthBridge service fees.
- If information needed to answer a customer is unavailable, the correct action is to say so and escalate rather than guess.
- Complaints are acknowledged within 1 business day and targeted for a substantive response within 5 business days.
- Urgent access, payment, safety or move-in problems are routed to a human as a priority.

Human escalation

A human must handle tenancy decisions, disputes, complaints requiring judgement, sensitive personal information, payment disputes, security concerns and any request where the available knowledge base is insufficient.

5. Contact and escalation routes

Item	Details
General support	support@northbridgeliving.example
Premium relocation team	relocation@northbridgeliving.example
Complaints	complaints@northbridgeliving.example
Urgent move-in/access issue	Mark the message URGENT; route to the duty support person immediately.
Emergency services	NorthBridge is not an emergency service. Customers should contact the appropriate local emergency service when there is immediate danger.

6. What NorthBridge does not promise

- No guarantee that any specific property remains available until the provider confirms it.
- No guarantee that an application, reference check or affordability assessment will pass.
- No guarantee of visa, immigration, employment or university outcomes.
- No legal interpretation of tenancy clauses; customers should seek qualified advice when required.
- No holding of customer rent or property deposits on behalf of landlords unless a future written service explicitly states otherwise.

7. Knowledge-base interpretation notes

When several documents address the same topic, the property portfolio is authoritative for listing-specific rent, deposit, inclusions, minimum stay and availability; the Services and Pricing Guide is authoritative for NorthBridge service fees and service scope; the Policies and Terms document is authoritative for cancellation, complaints, data handling and service limitations. The FAQ and Move-in Guide provides plain-language explanations but does not override those source documents.

RAG test principle

Answers should be grounded in these documents. If a fact is not present - for example the name of a CEO, annual company revenue or a guaranteed acceptance rate - the assistant should state that the information is not available in the knowledge base.
