27 September 2026

1. Scope and responsibility

These terms describe the NorthBridge Living support service used in this fictional RAG dataset. They do not replace a landlord or property provider tenancy, reservation agreement or statutory obligations. Where a property-provider agreement conflicts with a NorthBridge support description, the provider agreement governs the property transaction while these terms govern the NorthBridge service.

- NorthBridge provides information, matching, coordination and application support.
- Landlords/property providers determine property availability, acceptance, tenancy terms, deposits and rent.
- Customers remain responsible for reviewing documents before signing or paying.
- NorthBridge does not provide legal, immigration, financial or tax advice.
- AI-generated responses are support tools and must remain grounded in the published knowledge base.

2. Property information and availability

Item	Details
Accuracy basis	NorthBridge publishes provider-supplied information and aims to keep it current.
Availability	Availability can change without notice and must be reconfirmed before an application is treated as active.
Pricing	Portfolio rent is per calendar month unless otherwise stated. Provider charges are separate from NorthBridge service fees.
Material uncertainty	If a critical fact is missing or conflicting, the matter should be escalated to a human instead of inferred.

3. NorthBridge service cancellation

Core property matching, standard viewing coordination and application guidance have no NorthBridge service fee. Premium Relocation Support costs GBP 149 one time and follows the rules below.

1. A Premium customer may request cancellation within 48 hours of payment.
2. If no adviser work has started, the GBP 149 service fee is refundable in full.
3. If adviser work has started, the Premium fee is normally non-refundable.
4. Examples of adviser work include a personalised shortlist, viewing coordination or application-document review.
5. Duplicate payments and NorthBridge-initiated service cancellation are reviewed for refund.
6. A dispute about whether work started must be decided by a human reviewer.

4. Property cancellation, rent and deposits

- A NorthBridge service cancellation does not automatically cancel a property reservation or tenancy.
- Property cancellation rights depend on the provider documents and any signed tenancy/reservation terms.
- Rent and property deposits are paid to the landlord/property provider as instructed; NorthBridge does not approve their refund.
- Customers should retain receipts and written payment instructions.
- Payment disputes, suspected fraud and unexplained payment changes require urgent human review.

5. Complaints and escalation

Item	Details
Complaint acknowledgement	Within 1 business day.
Target substantive response	Within 5 business days.
Urgent access/payment issue	Immediate human routing during operational handling.
Safety or security concern	Do not rely solely on AI. Route to a human immediately; use appropriate emergency services where there is immediate danger.
Hiring/project/business decisions	Outside this accommodation knowledge base. AI should route rather than decide when a human decision is required.

6. Data handling

- Collect only information reasonably needed to support the accommodation search or application coordination.
- Do not expose one customer's personal information to another customer.
- Identity, financial and application documents are sensitive and should be handled only through approved systems.
- Customer-supplied case documents are targeted for deletion 90 days after the active search is closed unless a longer retention period is required for a legitimate operational or legal reason.
- Do not place API keys, passwords or service credentials in customer-facing documents or public repositories.

7. Service communications

- Normal support hours: Monday-Friday, 09:00-18:00 UK time, excluding UK public holidays.
- Standard response target: within 1 business day.
- Premium active-case response target: within 4 business hours during support hours.
- A response target is not a guarantee of resolution within the same period.

8. AI and human-in-the-loop rules

The AI assistant may answer routine factual questions when the answer is clearly supported by the knowledge base. It must not invent missing information or make decisions reserved for a person.

Item	Details
AI may answer	Published property facts, supported cities, service scope, listed fees, standard response targets and published cancellation rules.
Human review required	Complaints requiring judgement, refund disputes, payment issues, urgent access/safety concerns, sensitive personal information, unclear or conflicting information, tenancy decisions and any request requiring approval.
Unknown information	Use a safe no-answer response and offer human review rather than relying on general model knowledge.
Source handling	Where possible, show the document and page that directly support the answer.

Conservative routing principle

An unusual message is not automatically spam and an ambiguous customer request is not automatically safe for AI. When confidence is low or consequences are significant, route to a human.

9. Examples of unsupported claims

- The CEO or directors of NorthBridge Living - not supplied.
- Annual revenue, profitability or valuation - not supplied.
- A guaranteed percentage chance of tenancy acceptance - not supplied.
- A guaranteed future availability date beyond the specific portfolio snapshot - not supplied.
- Legal conclusions about whether a tenancy term is enforceable - outside service scope.
